Louisville, KY 40213

Dear Hiring Manager,

I am writing this letter to express my interest in interviewing for the Applications Developer position that I found through CareerTrak. With my degree in Computer Information Systems from the University of Louisville coupled with my experience in .NET, I believe I have the skills and experience necessary to be successful in this position.

I have worked on numerous projects throughout my professional career and am well accustomed to working in teams and finding solutions together. Moreover, I understand and welcome the challenges that I will face in this position. I like working on projects that test my knowledge and encourage me to step outside my comfort zone. I am always willing to acquire new skills and help build success in the organization however I can. Furthermore, I have had two years of experience in both C# and objected oriented design.

Over the course of my career I have:

- Become certified in Programming in C#
- Helped develop and maintain multiple projects at a time
- Learned best practices for developing and testing software

I wish to interview for the position of Applications Developer and hope to bring my skills and knowledge to this organization to help make a positive impact. I can be reached at my cell phone 502-792-4984 or my email [richard.patrick@louisville.edu](mailto:richard.patrick@louisville.edu). Thank you for your time and I hope to hear from you soon.

Sincerely,

Vince Patrick
